

## Correction to White Musings Mystery Sampler by Colleen Leader of Follow The Leader Designs

### Row 9: Knotted Upright Cross Variation

As there seems to be some confusion with the chart and diagram, I have changed both to be clearer. Please view both the new stitched diagram as well as the chart info for complete info. Please note: Complete the vertical stitches first using DMC B5200 (2 ply) working from left to right on the first row, second row is right to left, third row is left to right and fourth row is right to left. (this is indicated by the numbers on the stitch diagram) Once this has been completed, complete the elongated horizontal stitches in Perle cotton (1 ply) starting in row one and working back and forth left to right through the remaining rows.
